## Introduction-Skimming and scanning are reading techniques that use rapid eye movement and keywords to move quickly through Tent gor slightly different purposes - Skimming -Skimming is reading rapidly in order to get a general overview of the material. Skimming tells you what general information is within a section - Scanning -Scanning is reading rapidly in order to Find Specific facts. Scanning helps you locate a particular pacti Skimming to Save time: Skimming can save your hours of laborious roading . However, it is not

	always the most appropriate way to	
	read. It is very useful as a preview to	
18 10	a more detailed reading or when reviewing	
	a selection heavy in content. Use skimming to	
	overview your tent book chapters or to	
	Leview Dov a vest. Use Skimming to decide	
	if you need to sead something at all.	
	Steps of Skimming:	
	In general , Janow these sleps!	
-5	Read the table of contents or chapter overview	
	to learn the main divisions of ideas	
-	Read the headings of chavis and tables	
ه ا	Read the entire introductiony sparagraph and	
	then the Jirst and last sentence only of	
:	each Jououing paragraph.	
-	For each sparagraph, read only the first Dew	
	words of each sentence on to locate the	
1	main idea	
-	Stop and quickly read the sentences containing	
<u>.</u>	Keywords indicated in boldface or italics	
7	Resist the templation to stop to read	
	details you don't need-	
7	Read chapter summaries when provided.	

	/	
3	Look for answers to only one question at	
	a time. Scan separately for each question.	
	when you weate a keyword, read the	
	surrounding tent carefully to see if IT is	
	relevant	
0		
7	Re-read the question to determine if	
	The answer you jound answers the question	
	Conclusion:	
	9t can be concluded that skimming and	
	Scanning are two very different strategies	
	for speed reading. They are each used for	
	different purposes, and they are not	
	meant to be used all the time. they	
	reading range, while studying is at	-
	The slow end.
