

Alcohol Related Disorder

Alcohol Related Disorder

Introduction

- The diagnostic criteria for Alcohol Use Disorder (AUD) are outlined in the Diagnostic and Statistical Manual of Mental Disorders, 5th Edition (DSM-5). To diagnose AUD, a healthcare professional will assess the patient's behavior and experiences related to alcohol use, looking for at least two of the following criteria within a 12-month period: 1. _Alcohol is often taken in larger amounts or over a longer period than intended_ 2. _Desire or unsuccessful efforts to cut down or control drinking

▶ Craving

- 3. _A great deal of time is spent in activities necessary to obtain, use, or recover from the effects of alcohol_.
- 4. _Craving, or strong desire to drink_.
- 5. _Recurrent drinking resulting in a failure to fulfill major role obligations at work, school, or home.

Drinking Problems

5. _Recurrent drinking resulting in a failure to fulfill major role obligations at work, school, or home_6. _Continued drinking despite having persistent or recurrent social or personal problems caused or worsened by drinking_7. _Giving up important activities in order to drink_8. _Recurrent drinking in situations in which it is physically hazardous_9. _Continued drinking despite knowledge of having a persistent or recurrent physical or psychological problem that is likely to have been caused or worsened by drinking_10. _Tolerance (needing to drink increasingly larger amounts to achieve the desired effect)_11. _Withdrawal, as manifested by the presence of two or more of the following symptoms when drinking has stopped or been reduced: tremors, insomnia, nausea or vomiting, seizures or hallucinations, restlessness, anxiety, depression_

Tolerance and withdrawal

- 10. _Tolerance (needing to drink increasingly larger amounts to achieve the desired effect)_
- 11. _Withdrawal, as manifested by the presence of two or more of the following symptoms when drinking has stopped or been reduced: tremors, insomnia, nausea or vomiting, seizures or hallucinations, restlessness, anxiety, depression
