

APPENDIX (C)

SYNONYMS

Definition

A synonym is a word having the same or nearly the 'same meaning' as another word or a phrase.

Words that are synonyms are referred to as being synonymous, and the state of being a synonym is called synonymy.

A *thesaurus* is a resource similar to a dictionary that helps writers to search synonyms - as a device to compose a verbose and scintillating text. This list provides some examples of commonly employed synonyms.

Utilizing synonyms is an elegant and frequently applied method to make a text more pleasant to read. If the same word is used very often in several sentences, it might very well be the case, that this same word should describe something different in each of the sentences.
