

UNIVERSITY OF THE PUNJAB
B.S. 4 Years Program : Fifth Semester – 2021

Roll No.

Paper: Research Methods-II
Course Code: ECON-303 A

Part – II

Time: 2 Hrs. 45 Min. Marks: 50

ATTEMPT THIS (SUBJECTIVE) ON THE SEPARATE ANSWER SHEET PROVIDED

Q.2. Give short answers of the following:

(4x5=20)

- a. Population
- b. Sample Design
- c. Mixed data collection method
- d. Sampling Design

Q.3. Give brief answers of the followings.

(3x10=30)

- a. Explain various steps of sampling design.
- b. How sampling and non-sampling errors affects the results of the research?
- c. Explain various methods of collecting primary and secondary data.

questions paper

UNIVERSITY OF THE PUNJAB

B.S. 4 Years Program : Fifth Semester – Fall 2021

Paper: Research Methods-II

Course Code: ECON-303 A

Roll No. 27586.....

Time: 3 Hrs.

Marks: 60

Q.1. Give short answers to the following questions.

(5x6=30)

- Why do most of the researchers use item analysis approach the scale construction?
- Explain Simple correlation
- Explain Multiple regression analysis
- How precision can be improved in sampling
- Explain how extraneous variables create experimental error in your study?

Q.2. Answer the following questions in detail.

(3x10=30)

- Discuss different methods of primary data collection.
- Suppose you are conducting a primary research. Which research methods and research methodology you will choose? Explain with the help of an example.
- How social scientists form hypothesis to check the relationship between variables.

THE ANSWERS MUST BE ATTEMPTED ON THE ANSWER SHEET PROVIDED

Q.1. Give short answers to the following concepts.

(5x6=30)

- a. What are the sources of systematic error in your research?
- b. Explain Power of a test
- c. Explain Correlation coefficient
- d. Explain the source list in sampling
- e. How indeterminacy principle effect sampling

Q.2. Answer the following questions.

(3x10=30)

- i. What features do you think a quality research design must have?
- ii. Choose a research problem of your own choice and write a report on it.
- iii. Suppose you are conducting a primary research. Which research methods and research methodology you will choose? Explain with the help of an example.

THE ANSWERS MUST BE ATTEMPTED ON THE ANSWER SHEET PROVIDED

Q.1. Give short answers to the following concepts. (5×6=30)

- a. Explain partial correlation
- b. Explain Simple regression analysis
- c. In what type of study we can use snowball sampling
- d. What are the sources of random error in your research?
- e. Why do some researchers explicitly write instructions in the questionnaires?

Q.2. Answer the following questions. (3×10=30)

- i. How sampling and non-sampling errors can be reduced to get valid data for research?
- ii. What features do you think a quality research design must have?
- iii. Suppose you are conducting a primary research. Which research methods and research methodology you will choose? Explain with the help of an example.

THE ANSWERS MUST BE ATTEMPTED ON THE ANSWER SHEET PROVIDED

Q.1. Give short answers to the following concepts. (5x6=30)

1. How indeterminacy principle effect sampling
2. Explain Stratified Sampling method of data collection
3. How precision can be improved in sampling
4. Why do most of the researchers use item analysis approach the scale construction?
5. Why studies based on probability sampling are preferred over studies done by using non-probability sampling?

Q.2. Answer the following questions. (3x10=30)

- I. How sampling help social scientist to conduct a study?
- II. Choose a research problem of your own choice and write a report on it.
- III. How sampling and non-sampling errors can be reduced to get valid data for research?
