Objectives Overview

Identify the four categories of application software

Describe characteristics of a user interface

Identify the key features of widely used business programs

Identify the key features of widely used graphics and multimedia programs

Objectives Overview

Identify the key features of widely used home, personal, and educational programs

Discuss Web applications

Identify the types of application software used in communications

Describe the learning aids available for application software

Application Software

- **Application software** consists of programs designed to make users more productive and/or assist with personal tasks

To make business activities more efficient

To assist with graphics and multimedia projects

To support home, personal, and educational tasks

To facilitate communications

Application Software

Four Categories of Application Software

Business

- Word Processing
- Spreadsheet
- Database
- Presentation
- Note Taking
- Personal Information Manager (PIM)
- Business Software for Phones
- Business Software Suite
- Project Management
- Accounting
- Document Management
- Enterprise Computing

Graphics and Multimedia

- Computer-Aided Design (CAD)
- Desktop Publishing (for the Professional)
- Paint/Image Editing (for the Professional)
- Photo Editing (for the Professional)
- Video and Audio Editing (for the Professional)
- Multimedia Authoring
- Web Page Authoring

Home/Personal/Educational

- Software Suite (for Personal Use)
- Personal Finance
- Legal
- Tax Preparation
- Desktop Publishing (for Personal Use)
- Paint/Image Editing (for Personal Use)
- Photo Editing and Photo Management (for Personal Use)
- Clip Art/Image Gallery
- Video and Audio Editing (for Personal Use)
- Home Design/Landscaping
- Travel and Mapping
- Reference and Educational
- Entertainment

Communications

- Web Browser
- E-Mail
- Instant Messaging
- Chat Room
- Text, Picture, Video Messaging
- RSS Aggregator
- Blogging
- Newsgroup/Message Board
- FTP
- VoIP
- Video Conferencing

Application Software

- Available in a variety of forms:

Application Software

- **System software** serves as the interface between the user, the application software, and the computer's hardware
 - Utility programs

Application Software

One Way to Start and Interact with a Program from Windows

Step 1

When you turn on a PC-compatible computer, Windows loads into memory and displays the desktop on the screen. Click the Start button on the Windows taskbar to display the Start menu.

Step 2

Click All Programs on the Start menu to display the All Programs list. Click Accessories in the All Programs list and then point to Paint in the Accessories list.

Step 3

Click Paint. The Paint window opens on the desktop.

Paint window

Step 4

Instruct the Paint program to open a file that is stored on the hard disk.

Step 5

Instruct the Paint program to print the photo. When the Print dialog box appears, click its Print button.

Business Software

- Charting depicts data in a spreadsheet in graphical form

Business Software

- A **database** is a collection of data organized in a manner that allows access, retrieval, and use of that data
 - **Database software** allows users to create, access, and manage a database

The screenshot displays the Microsoft Access interface with the 'InPerson Fitness' database open in Datasheet View. The 'Client' table is selected, showing columns for Client Number, Last Name, First Name, Address, Telephone Number, Amount Paid, Balance, and Trainer Number. The 'Trainer' table is also visible below, with columns for Trainer Number, Last Name, First Name, Telephone Number, Hourly Rate, Start Date, Comment, and Web Page. Annotations highlight the 'fields' (column headers), the 'Client table', the 'Trainer table', and the 'records' (data rows).

Business Software

- **Presentation software** allows users to create visual aids for presentations to communicate ideas, messages, and other information to a group

Business Software

- **Note taking software** is application software that enables users to enter typed text, handwritten comments, drawings, or sketches anywhere on a page

The screenshot displays a note-taking application interface. The main content area shows a diagram titled "Circulatory System Variations" with three illustrations: Planaria (gastrovascular cavity), Insect (open circulation with tubular heart), and Earthworm (closed circulation with dorsal and ventral blood vessels). Below the diagram is a section titled "Human Heart" with bullet points. A red arrow points from the handwritten note "This will be on the test!" to the Earthworm diagram. The right sidebar shows a list of notes with "Spanish Lit Paper" at the top. The top of the window shows the date "9/18" and time "11:11 AM".

Business Software

- A **software suite** is a collection of individual programs available together as a unit
- A **personal information manager (PIM)** is application software that includes

Appointment
calendar

Address
book

Notepad

Business Software

Project management software allows a user to plan, schedule, track, and analyze the events, resources, and costs of a project

Accounting software helps companies record and report their financial transactions

Document management software provides a means for sharing, distributing, and searching through documents by converting them into a format that can be viewed by any user

Business Software

- Enterprises typically require special computing solutions for various functional units
