

Akhuwat College Kasur
Department of Economics

Lecture Plan

Course Code: ECON-304

Course Title: History of Economic Thought

Semester: V (BS Economics)

Credit Hours: 3

Contact Hours: 48

Pre-Requisites: Intermediate Microeconomics & Intermediate Macroeconomics

Instructor: Ayub Islam

Office Hours:

Class Timings:

Course Objectives:

The main objective of this course is to introduce students with different schools of thoughts in economics. This course surveys the main schools in the history of the development of economic thought, beginning with the Classical school and concludes with the recent work in the field of economics.

Learning Outcomes:

After the completion of this course, the students will be able to understand the following:

- Historical background of various schools of economic thought and social, political and economic environment within which a specific school emerged.
- The major tenets of the school, enabling a concise presentation of the essence of each school
- The beneficiaries of a specific school during its time period
- The utility and validity of the school in its time
 - The tenets of the school which made the lasting contribution and helped in the emergence of modern economics
 - The key debate and the socio-political context in which the main texts were written
- The ability to appreciate and analyze primary texts, including their contemporary relevance

Text Books:

1. V. Lokanathan 8th Edition, History of Economic Thought
