

What is an activity method ?

- The activity method is a technique adopted by a teacher to emphasize his or her method of teaching through activity in which the students participate rigorously and bring about efficient learning experiences.
- It is a child-centered approach. It is a method in which child is actively involved in participating mentally and physically. Learning by doing is the main focus of this method.

So activity method means any learning that is carried out with a purpose in a social environment, involving physical and mental action, stimulating for active action or expression.

Benefits of Activity Based Learning Approach

- ❑ The learners are actively involved as the environment is democratic.
- ❑ The activities are interactive and student-centered.
- ❑ The teacher facilitates a process of learning in which students are encouraged to be responsible and autonomous.
- ❑ Children learn on their own pace.
- ❑ Provision of more time for self-directed learning and teacher directed learning is reduced considerably.

Cont.

- ❑ Group learning, mutual learning and self learning are promoted.
- ❑ Teachers teaching time is judiciously distributed among children. Only needy children are addressed by teachers.
- ❑ Children participation in every step is ensured in the process of learning.
- ❑ Evaluation is inbuilt in the system it is done without the child knowing it.

- ❑ Sense of event boosts child's confidence and morale.
- ❑ Attractive cards and activity create interest among children.
- ❑ Scope for child's development in creative and communicative skills.
- ❑ Children will have a feel of security as they sit in rounds in the groups.
- ❑ Children are allowed to move in the classroom as they choose their activity.
- ❑ Moreover the distance between teacher and the child is largely reduced and the teacher acts as a facilitator rather than teacher.

Limitations of Activity Method

- ❑ Careful consideration of emotionalized controls may be overlooked during classroom activities.
- ❑ Apparently some teachers forget that all classroom activities contribute directly or indirectly to the formation of attitudes, favorable or unfavorable.
- ❑ Some classroom activities become contradictory with values of and culture of the students.
- ❑ This method is time consuming and does not cover the course/subject matter timely.

Cont.

- ❑ Our teachers are over burden. So they feel difficulty to plan relevant and appropriate activities all the time.
- ❑ Our classes are overcrowded so there is problem to arrange, organize and manage classroom activities properly.
- ❑ Lack of professional training of teachers affects to plan and process the innovative classroom activities such as computer based activities.
- ❑ Lack of physical, financial and instructional facilities become hurdles in the application of activity method.
