

Focus Group Discussion

B.S psy 6th

Focus Group Discussion

A focus group discussion is a qualitative research method where a small group of people discuss a specific topic under the guidance of a moderator to gather in-depth insights and opinions.

Focus Group Discussion (FGD) Introduction:

Purpose

- Explore participants' opinions and attitudes on a specific topic.

- Gain in-depth, qualitative insights through open-ended discussion.
- Understand group dynamics and generate ideas

Structure

- Typically involves 6-12 participants.
- Discussion lasts 1-2 hours.
- Participants selected based on criteria relevant to the topic.

Moderator Role

- Facilitate the discussion, keeping it focused and productive.
- Encourage participation from all members.
- Probe deeper into responses for richer insights.
- Example:

Scenario: Understanding preferences for a new smartphone among young adults (18-25).

Participants: 8 young adults who regularly use smartphones.

Discussion Points: Current smartphone usage, likes/dislikes, feedback on potential new features (e.g., battery life, camera quality).

Outcome: Gather insights to inform the design and features of the new smartphone.

Advantage

- Provides detailed qualitative data through open-ended discussions.
- Group Dynamics:
- Flexible and Adaptive:
- Exploration of Complex
- Cost-Effective:

- Immediate Feedback
- Idea Generation
- Nonverbal

Disadvantage

Group dynamic

Moderator bias

Data analysis complexity

Participants bias

Confidentiality concern

Planning of focus group

- Define Objectives
- Choose a Moderator
- Prepare Discussion Guide
- Arrange Logistics
- Conduct the Focus Group
- Record and Document
- Analyze Data
- Follow Up

Developing focus group guide

1 intro welcome

probing question

4 Exploratory

questions sample

question

- 5 Closing question
- 6 logistic
- 7 moderator notes

Select the number and type of participants for each focus group

- 1.identify research objectives
- 2.determine the num of participants
- 3.select type of participants
- 4segmenting participant
- 5. recruitment
- 6. group dynamic

How to conduct a focus group

- 1. preparation
- 2. introduction
- 3. conducting the discussion
- 4. conclusion
- 5. post-session

Role of a facilitator, note taker, and technician

Facilitator

Role: Guides the discussion.

Duties: Ensures everyone participates, keeps the conversation focused, and creates a comfortable atmosphere.

2. Note-Taker

Role: Records key points.

Duties: Takes detailed notes of the discussion, capturing important ideas and quotes.

3. Technician

Role: Manages technical setup.

Duties: Ensures audio/video recording works, handles equipment, and solves any technical issues.
