Assignment.

• Book Reference Writing

APA (American Psychological Association) style is a format for academic documents such as journal articles and books. In the 7th edition of the APA style, references for books should include the following elements:

Author(s):

List the last name and initials of the author(s). If there are more than 20 authors, list the first 19 followed by an ellipsis (...) and then the last author's name.

Publication year:

Enclose the publication year in parentheses, followed by a period.

Title of the book:

Italicize the title and capitalize only the first word of the title, the first word of the subtitle (if any), and any proper nouns.

Edition:

If it is the first edition, do not include an edition statement. For subsequent editions, include the edition number in parentheses after the title, followed by "ed."

Publisher:

Include the name of the publisher. If the publisher is a university press, abbreviate it without periods (e.g., Harvard University Press becomes Harvard UP).

DOI or URL:

If the book has a DOI (Digital Object Identifier), include it after the publisher's name. If there is no DOI, include a URL if the book is freely available online. Do not include a URL for books that are only available through a library or database.

Examples

Certainly! Here are some examples of how to reference books in APA 7th edition format:

1. Single Author:

Last name, Initials. (Year). Title of the book. Publisher.

Example:

Smith, J. (2019). The Power of Habit. Random House.

2. Two Authors:

Last name, Initials., & Last name, Initials. (Year). Title of the book. Publisher.

Example:

Johnson, M., & Patel, S. (2020). Mindset: The New Psychology of Success. Ballantine Books.

3. Three or More Authors:

Last name, Initials., Last name, Initials., Last name, Initials., Last name, Initials., & Last name, Initials. (Year). Title of the book. Publisher.

Example:

Adams, R., Brown, S., Clark, T., Davis, P., & Evans, M. (2018). Introduction to Psychology. Pearson.

4. Edited Book:

Last name, Initials. (Ed.). (Year). Title of the book. Publisher.

Example:

Rogers, C. (Ed.). (2021). Social Psychology: Contemporary Perspectives. McGrawHill Education.

5. Chapter in an Edited Book:

Last name, Initials. (Year). Title of the chapter. In Editor's Initials. Last name (Ed.), Title of the book (pp. page range of chapter). Publisher.

Example:

Johnson, M. (2017). Cognitive development in early childhood. In S. Patel (Ed.), *Child Development Perspectives* (pp. 45-68). Springer.

Remember to italicize the titles of books and use sentence case for book titles, capitalizing only the first word of the title and any proper nouns.

• Reference of Article Writing

APA 7th edition provides guidelines for referencing various types of sources, including articles. Here's a detailed explanation of how to format references for articles in APA style:

Basic Format:

Author, A. A., Author, B. B., & Author, C. C. (Year). Title of article. Title of Journal, Volume number (Issue number), page range. DOI or URL **Example:**

Smith, J. D., & Johnson, M. K. (2020). The impact of climate change on agriculture. *Environmental Science*, 5(2), 100-115. <https://doi.org/10.1007/s13412-01900506-4>

Explanation of Each Element:

Author Names:

List the last name and initials of up to 20 authors. Use an ampersand (&) before the last author's name.

Publication Year:

Place the year of publication in parentheses, followed by a period.

Article Title:

Capitalize only the first word of the title and any proper nouns. Italicize the title and end with a period.

Journal Title:

Italicize the title and capitalize all major words. Follow it with a comma.

Volume Number:

Italicize the volume number and follow it with a comma.

Issue Number (if applicable):

Place the issue number in parentheses immediately after the volume number, without italicizing. Follow it with a comma.

Page Range.

Provide the page range of the article, separated by a hyphen.

DOI (Digital Object Identifier) or URL:

If available, include the DOI or URL at the end of the reference. If the article has a DOI, use it instead of the URL.

Additional

Notes:

- If an article does not have a DOI, you can include the URL of the journal's homepage or the article's landing page.
- For articles with more than 20 authors, list the first 19 authors followed by an ellipsis (...) and then the last author's name.
- If there is no issue number, omit the parentheses around the volume number.
- If the journal uses article numbers instead of page numbers, include the article number after the volume number, without a page range.

Make sure to carefully check the formatting and punctuation of your references, as accuracy is essential in APA style.
